## ABOUT THE GLOBAL GREEN GROWTH INSTITUTE (GGGI)

- ▷ **GGGI supports 36 Members to deliver on the Sustainable Development Goals (SDGs) and the Nationally Determined Contributions (NDCs) to the Paris Agreement.**

Based in Seoul, Republic of Korea, GGGI is a treaty-based international, inter-governmental organization that supports developing country governments' transition to a model of economic growth that is environmentally sustainable and socially inclusive.

GGGI has a unique in-country presence and prominent role as a neutral, trusted advisor and strategic development partner embedded in Member and partner governments. These advisors are directly engaged with national governments in setting the strategic direction for national program development guided by a Country Planning Framework with the Government.

GGGI's operating model maximizes the potential to translate green growth strategies and policies, especially economic

policies into green investment plans, mobilizing green finance commitments needed to bolster support for low-carbon and climate-resilient economic development and strong institutional capacity development.

GGGI's expertise and experience in supporting investor engagement in emerging and developing countries to deliver the scale and quality of investment needed will be a critical component to achieve green growth and the Paris Agreement. GGGI promotes strategic partnerships and collaboration with key partners and stakeholders at the national and international levels, including the public and private sectors, regional bodies, bilateral development partners, international financial institutions, foundations, and civil society organizations.

## GGGI delivers work and supports its Members and partners through a guiding framework of five core values:
